

# Bathrooms by selfsure

making homes fit for ageing

Your perfect bathroom made easy

# Welcome

**Installing a modern walk in shower or wet room is a great way to add appeal to your home, as well as creating a safe, easy way to help you keep clean and healthy now and in the future.**

Our plumbing teams are employed by SelfSure and have many years' experience fitting specialist bathrooms, therefore I am confident you will be highly delighted with the finished product. The quality is in the detail and our plumbing teams always work to a very high standard.

We're sure you're going to love the bathrooms featured in this brochure, however there are more choices available if you require a wider range to choose from.

We like to keep things simple, uncomplicated and transparent, supported by outstanding Customer Service, a dedicated Personal Advisor and a quality, after care service.

The majority of our Customers say, "I wish I'd have done this years ago!" Let me encourage you to take action, so you too can benefit from our bathrooms in the very near future.

SelfSure is a member of the BHTA and subscribe to the only industry recognised code of conduct. What this means is you will always receive a warm welcome, a professional service and reassurance that you are dealing with a well-established, ethical company which always puts the Customer first.

We reserve the right to vary or alter any of the designs, specifications, and packaging of the products described in our sales literature if circumstances so require. In the event that any fundamental variation or alteration does take place we shall inform the customer at the earliest opportunity.

## Before you buy...

**Firstly we strongly recommend that you choose a bathroom that will be suitable for your needs now but also in the future. We call this "Future Proofing" any products that you purchase.**

**Ask yourself the following questions:**

**Do I want to stay in my own home?**

**Would the bathroom be suitable as I get older?**

**Would the bathroom be suitable if I had a change in circumstances such as a change in mobility, ailments, dexterity and so on?**

**Do I want to create a safer environment to live in with less risk of tripping or falling?**

**Do I want products that are simple and easy to use?**

**Do I want products that are easier to keep clean?**

These are just a few examples of the questions you need to ask yourself. Try and be as clear as possible and make a list of your requirements before buying a product. Obviously we are more than happy to help you achieve this.

**Are all products the same?**

Unfortunately not! The industry is very competitive and as a result some companies buy their products as cheaply as possible. Therefore if you get a quote that seems too good to be true then it probably is!

**A quality nationwide service**

At SelfSure, where possible we buy British made products and only buy our products from well-established manufacturers and suppliers who provide quality products, worthwhile warranties and a great aftercare service on a nationwide basis.

8 Easy Steps to  
a Bathroom that's right for you...

Should you choose a  
Wetroom V Easy Access V Walk in Bath

- 1. Decide if you want a Wetroom or Easy Access Shower [Page 05](#)
- 2. Choose which design you would prefer [Page 06/07](#)
- 3. Choose your easy clean wall panels [Page 08/09](#)
- 4. Choose your non-slip flooring [Page 10/11](#)
- 5. Choose your shower design [Page 12/13](#)

- 6. Choose your basin, taps and toilet designs [Page 14/15](#)
  - 7. Choose your bathroom furniture [Page 16](#)
  - 8. Choose your bathroom accessories [Page 17](#)
- It really is that simple!...

✓ Tick to choose Wet Room, go to page 06 ☐ ✓ Tick to choose Easy Access Shower, go to page 07 ☐ ✓ Tick to choose Walk in Bath, go to page 08 ☐

- Main advantages of a Wetroom**
- Reduces the risk of tripping or falling
  - Creates a full level access showering solution
  - A wet room is super-stylish and perfect for creating a contemporary look
  - Great for small bathrooms - removing the bath creates much more space
  - Wet rooms are, in general, easier to clean. There's no need for a shower screen or tray to worry about and if you go for a wall-hung sink and toilet, it's easier still
  - If it's done properly, your floor is better protected than it would be in a standard bathroom

- Main advantages of an Easy Access Shower**
- Reduces the risk of tripping or falling
  - Easy access with either a full level access, surface mounted (step up) or step in showering solutions
  - A low access shower is stylish and perfect for creating a contemporary look
  - Easier to clean than a normal bathroom
  - Great choice of design

- Main advantages of an Walk in Bath**
- Safe and easy to get in and out of the bath
  - Full soak to ease aches and pains
  - Wide range of designs to choose from
  - Quick Installation
  - Long term bathing solution

# Our work

Please remember these photographs are taken by Plumbers, not professional photographers. The bathrooms are not dressed as they would be in a studio set. Although the photographs may not do our work justice, each bathroom has been totally transformed to the delight of our customers.

## Happy Customers:

***"Should have done it years ago, cant believe I've struggled on for so long"***  
Mrs Ainslie, Birmingham

***"It's a complete transformation"***  
Mrs Orbell, Birmingham

***"The 2 Plumbers, Josh and Jake, were fantastic. They worked very hard, kept my home clean and did a great job"***  
Mr Woolley, Salisbury

***"After having such a bad fall, it is really reassuring that getting in and out of the shower is safe and easy"***  
Mrs Smith, Ramsgate

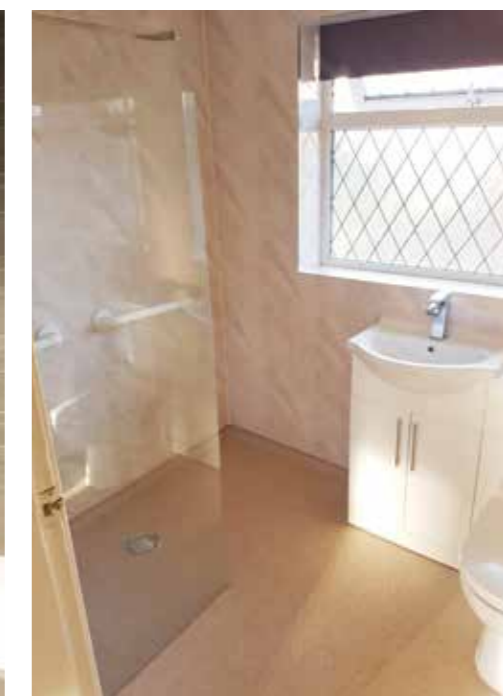

***"Can't believe the job you've done, its absolutely brilliant."***  
Mrs Headley, London.

***"It has made my life so much easier plus my new wetroom is much easier to keep clean"***  
Mr D. Hopwood, Burnley

***"Great service from start to end"***  
Mr & Mrs Hallam, Nottingham

***"I would recommend you to anyone who is looking for a new bathroom, you were great"***  
Mrs Postle, Wakefield

***"I'm so happy with my new bathroom. Its modern, stylish and makes my life so much easier"***  
Mrs B Johnson, Bradford  
(she would say that she's the director's Mother!)

- ✓ Showers - 3 years
- ✓ Fans - 3 years
- ✓ Rubber seals or runners - 2 years
- ✓ Workmanship - 1 Year

### The Small Print

SelfSure expressly warrants the owner of a SelfSure bathroom that it will repair/replace the covered items, if the item fails due to a manufacturing defect during the warranty period expressed overleaf.

The work carried out by us in relation to the bathroom installation will also be covered for 12 months from the day installation is completed. Any problem with existing furniture, pipework, fixtures or fittings will not covered. This will be the sole responsibility of the customer. In such circumstances, SelfSure will be happy to attend and assess the problem. This service is chargeable and must be paid upfront. If the assessment reveals that the installation was the cause of the problem, the payment will be returned in full.

The warranty of the original purchaser can be transferred to the next owner. A purchase receipt will be required before warranty service is rendered. In case the aforementioned document is unavailable, the warranty will not be applicable.

### Exemptions

This warranty will not apply to damage caused in the following cases:

1. Damage caused by improper care or use of your bathroom - Any damage caused by a person using the facilities in any way, other than the everyday ordinary use for which they are intended.
2. External causes - This warranty does not cover, and SelfSure hereby disclaims, all liability for damage caused by physical or chemical

abuse, acts of vandalism, damage from heat or uneven exposure to weather conditions, fire, flood, earthquakes, accident, war and acts of God.

3. Making Good/Finishing off part bathrooms- Where the work requested by the customer is for a part bathroom (this will be stated on the order form) there may be areas that need minor cosmetic work to be finished off. This is to be undertaken by the customer unless priced for and noted in the work schedule provided.
4. SelfSure's obligation is limited solely to repair or replace the products purchased, including reasonable and necessary labour charges when the claim is acceptable within the warranty terms.
5. No other expressed or implied warranties of merchantability or fitness for a particular purpose are made by this warranty except for those expressly provided herein. Under no circumstances shall SelfSure be liable for any loss or damage arising from the purchase, use or inability to use the product, or for any special, indirect, incidental or consequential damages.

### Claims

To claim service under this warranty, please call **0800 169 9588** quoting your surname and postcode.

**For Full Terms and Conditions see [www.self-sure.co.uk](http://www.self-sure.co.uk)**

# FAQ's

## How long does it take?

It depends on the job. If you see an advertisement stating that it can be done in one day they are referring to a ready-made bathroom pod which is not required by 99% of our Customers. We put 2 men full time on your job. They will not be called away to do other work.

A complete new bathroom or wet room normally takes 4 to 5 days. If we are just replacing a bath with a low access shower will take approximately 2 to 3 days.

## How much space do I need for a wet room/walk in shower?

Our design team can plan a wet room/shower room to fit into the smallest of spaces.

## Can a wet room be installed on concrete floors?

Yes. Furthermore there are two alternative approaches. If it is not possible to chisel out enough of the concrete to accommodate the full depth of the drain - 75/80 mm - a base can be constructed from timber and plywood to provide a solid platform for the wet base. After that the build process is exactly the same as it is for wooden floors.

## Can a wet room/walk in shower be safely installed on upper floors?

Yes. The key is attention to detail at each stage of the process and the right kind of waterproofing. We recommend you employ a specialist plumber, like ourselves, to do this work.

## Will it be strong enough to take the weight of a wheelchair?

We use AKW Tuff Form trays which are made to withstand such pressure and can be tiled or covered with non-slip flooring.

## Can underfloor heating be installed safely in a wet room?

Yes.

## How do I stop water flowing into the rest of the room?

A shower screen or heavy duty curtain fitted along the long side of the base resting on the tiles will prevent water from splashing or running into the rest of the room. They can be bought in a variety of sizes and designs from very simple clear glass screens to hinged versions, wall fixed or freestanding, etc

## Do I need to waterproof outside the shower area?

No. Providing a shower screen is fitted to prevent the escape of water into the rest of the room, there is no need to waterproof outside the shower area. Waterproofing is needed on the shower walls (not all companies do this) and it is usual to extend waterproofing onto the floor immediately outside the entrance to the shower area (known as the drying area).

## Can I spread the cost of my new bathroom?

Yes, we offer a number of low rate finance packages with various deposit options. There is no age cap and people who are retired or disabled can be approved.

## How soon after I accept the quote will my new Bathroom be installed?

Once you have accepted the quote we will give you a week commencing date. Our Plumbers will arrive at a time agreed with you.
