Bathlift Range Features

Great features come as standard on all of our bathlifts.

01

Suitable for most bath types, our bathlifts simply sit in your existing bath and are attached securely with quick release suction feet to allow struggle-free removal from the bath

02

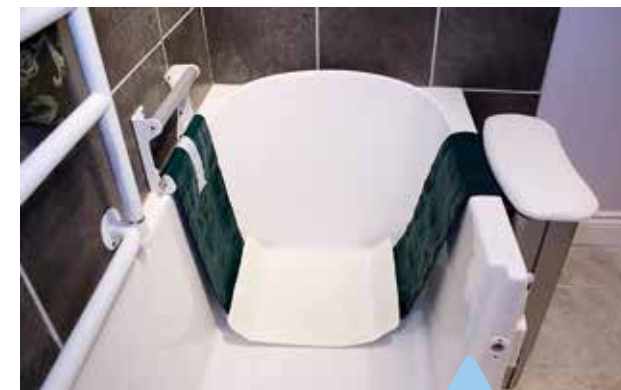

Safe and simple to use, our bathlifts are powered by a completely waterproof, rechargeable user friendly battery hand control

03

A built-in battery monitoring system also indicates when recharging is needed and a safety mechanism which will not allow the bathlift to lower unless there is sufficient charge to raise it back up from the bottom of the bath

04

The bathlifts and their simple, portable, compact design make them easy to use, clean, store and transport

Made In the UK

The Molly Bather belt bathlift gives you a full soak at the very bottom of your bathtub.

- ▶ The Molly Bather is the only bath lift with a luxury padded transfer-seat
- ▶ The bath lift is operated by a waterproof handset, Raising and lowering the seat effortlessly
- ▶ The belt unclips for others to use the bath unaided
- ▶ The battery gives around 20 bathlifts between charges
- ▶ The Molly Bather bathlift is designed to accommodate most bathroom layouts
- ▶ The belt fits baths up to 85cm in width
- ▶ The standard Molly Bather fits most bathtubs, its telescopic legs suit baths between 46 to 58cm in height

Weight Capacity: **14 kg (308 lbs)**

Lifts Between Charges: **20 (average)**

Charging Duration: **8 to 10 hours (overnight)**

Battery Capacity: **12V x 2.3Ah SLA**

Warranty Period: **12 months**

Fixed Bathlift

This is without doubt, the most popular bathlift within our range.

- ▶ Ultra-lightweight compact bathlift can comfortably lift a weight of 20st
- ▶ Its trim, subtle design makes this bathlift easy to carry and store
- ▶ When left in its lowest position in the bath, it is barely noticeable!
- ▶ Excellent legroom - a slimline, fixed-back design allows it to fit close to the back of the bath
- ▶ Safety Feature: will only lower you into the bath when there is sufficient battery power to raise you back up again
- ▶ Combined with a seat that sits low in the bottom of the bath, you will be able to immerse yourself in the water

Overall Width: **68cm (26.8")**
 Overall Height: **58cm (22.8")**
 Seat Width (Closed): **33cm (13")**
 Seat Length: **34cm (13.4")**
 Seat Height Min: **7cm (3")**
 Seat Height Max: **46cm (18")**
 Baseplate Width: **34.5cm (11.6")**
 Baseplate Length: **38cm (15")**
 Weight (w/o Battery): **6.5kg (14lb)**
 Weight Capacity: **127kg (20st)**

“
 Our range of
 Bathlifts enable
 you to enjoy a
 great soak...
 A true bathing
 experience
 ”

Inflatable Bathlift

The Inflatable Bathlift is ideal if you have difficulty getting in and out of the bath. Perfect if you have reasonable upper body stability, the Inflatable Bathing Lift gently lowers you into the bath and raises you back out when required, all at the touch of a button. Whilst at the bottom of the bath you can choose whether to keep some air in the cushion to provide a supportive backrest, or release it all to lie right back for a completely natural bath.

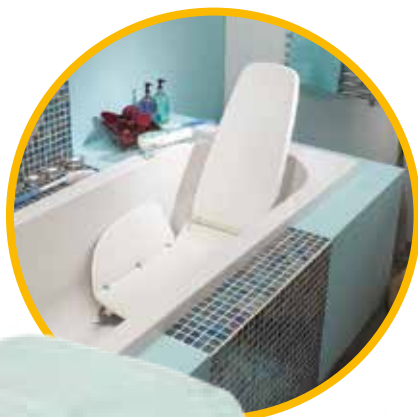

- ▶ Enables you to lie right down at the bottom of the bath
- ▶ Portable, lightweight and very stable
- ▶ Extremely comfortable
- ▶ No expensive bathroom alterations
- ▶ Fitted or removed in seconds
- ▶ Battery operated – no dangerous power cables
- ▶ Fully waterproof hand control
- ▶ Safety feature: will only lower you into the bath when there is sufficient battery power to raise you back up again
- ▶ Powered by low air pressure using the Airflo 12 power source

Seat Width: **50cm (20")**
 Seat Depth: **44cm (17")**
 Seat Height: **2 - 40cm (0.75 - 16")**
 Backrest Width: **54cm (21")**
 Backrest Depth: **33cm (13")**
 Airhose Length: **180cm (70.75")**
 Weight: **2kg (4.4lb)**
 Weight Capacity: **150kg (24st)**

The Aquila Bathlift is one of the lightest battery powered reclining bathlifts available, and is easily adapted for paediatric use.

- ▶ Supportive backrest with angle adjustment increases comfort for users with stiff hips or spinal problems (e.g. Scoliosis, Kyphosis)
- ▶ Streamlined, high backrest design increases shoulder, neck and / or head support without the need for an additional headrest
- ▶ Compact design folds flat and optimises legroom even when fully reclined for generous transfer / bathing space
- ▶ Low seat height provides good water immersion
- ▶ One of the lightest reclining bathlifts available at only 9.6kg (21lb)
- ▶ Streamlined design enables space saving storage and transportation
- ▶ Separates into 2 lightweight sections for safer fitting and removal
- ▶ Waterproof, slim line hand control with large textured rocker switches can be operated by people with limited dexterity or visual impairment
- ▶ Stop Descent™ feature prevents bathlift from lowering without sufficient battery power to rise

“

01

What is the shape, size and type of your bath?

02

How frequently will you remove the bathlift from the bath?

03

Are you looking for a fixed or reclining back?

04

Will you use your bathlift just at home or on your travels?

Bathlift InStore Advice

Finding the right Bathlift for you...

Have a little think about these questions, this will help our Advisors assess our product range and suggest which Bathlift will best suit your requirements, condition and lifestyle.

05

What is your height and weight?

06

Do you have a budget in mind?

07

Do you have any medical conditions that need to be considered?

08

Have you any thoughts of style, design or colour, think about your home décor/bathroom suite and how it will fit in?

09

Have you thought about accessories?

Purchasing suitable equipment could represent huge savings compared with other expensive bathroom alterations

11

Would you like to look into an extended warranty, insurance or a service contract?

“
Make getting
on and off the
toilet that little
bit easier
”

1. Raised Toilet Seat Without Lid (2"/4"/6")

Two hygiene cutouts provide maximum convenience.

- ▶ Attaches easily and securely to toilet bowl with front buffer and two rear plastic hand wheel locks
- ▶ Smooth, accessible surfaces for user comfort and ease of cleaning
- ▶ Weight Capacity: 32st (200kg)

2. Raised Toilet Seat With Lid (2"/4"/6")

Two hygiene cutouts provide maximum convenience.

- ▶ Attaches easily and securely to toilet bowl with front buffer and two rear plastic hand wheel locks
- ▶ Smooth, accessible surfaces for user comfort and ease of cleaning
- ▶ Weight Capacity: 32st (200kg)

3. Soft Raised Toilet Seat 10cm (4")

10cm (4") toilet seat made from soft and flexible yet tough E.V.A material, which provides antibacterial and waterproof properties.

- ▶ Made from soft and flexible yet tough E.V.A material, which provides anti bacterial and waterproof properties
- ▶ Fully padded seat design helps provide a more comfortable sit

4. Red Dementia friendly 4" Raised Toilet Seat

Red Plastic Raised Toilet Seat for easy visibility and recognition.

- ▶ Using highly visible contrasting colours can help people with dementia find and use the seat more easily, preventing falls and increasing confidence and independence
- ▶ Weight Capacity: 30st (190kg)

5. Raised Toilet Seat With Arms

Raised plastic seat with integral armrests designed to fit onto existing toilet bowl to aid sitting down and standing up from the toilet.

- ▶ Integral armrests provide additional support
- ▶ Armrests flip up for side transfers
- ▶ Can be set at 3 different heights to suit user requirements
- ▶ Weight Capacity: 24st (150kg)

6. 2 In 1 Toilet Seat With Removable Arms

Raised plastic seat with integral armrests designed to fit onto existing toilet bowl to aid sitting down and standing up from toilet.

- ▶ Arms can be removed to facilitate side transfers
- ▶ Heavy duty moulded plastic construction provides additional strength and durability
- ▶ Foam padding extends across the entire length of the armrests for added comfort

Our Toilet Frames are:

A great handy aid offering assistance when sitting or standing from the toilet. Robust steel construction and non-slip, non-marking feet ensure stability. Floor-fixed versions are also available for added safety

1. Kibworth Toilet Frame

Free-standing, rigid double strut steel frame that locates around toilet to offer toileting support for user and to assist with sitting and standing.

- ▶ Hard-wearing, Duradip® peel-resistant plastic coating on frame increases longevity of use
- ▶ Moulded comfort grip plastic armrests offer easy cleaning
- ▶ Weight Capacity: 28st (180kg)

2. Cosby Toilet Surround With PU Arms

Free-standing, multi-adjustable frame surrounds toilet and provides supportive armrests to assist with getting on and off the toilet.

- ▶ Easily adjustable in height and in width (using e-clips), thus accommodating wider range of users
- ▶ Moulded comfort grip plastic armrests enable easy cleaning
- ▶ Weight Capacity: 30st (190kg)

3. Toilet Frame with Magazine Rack

Free standing frame surrounds your toilet to provide additional support.

- ▶ Padded arm rests provide additional comfort and support
- ▶ Includes a magazine rack for added convenience
- ▶ Lightweight and portable steel frame
- ▶ Weight Capacity: 21st (136kg)

4. Stamford Combi Scandia Toilet Seat & Frame

Sturdy steel frame, incorporating armrests and one piece moulded seat, raises height of standard toilet for easier transfers on and off the toilet.

- ▶ Clip-on/clip-off seat allows simpler cleaning
- ▶ Rear lugs either side of seat are positioned to ensure a safe, snug and stable fit
- ▶ Side cross-members give extra strength and robustness
- ▶ Weight Capacity: 30st (190kg)

5. Bariatric Stamford Grand Combi Scandia

This sturdy, extra wide heavy duty version is height adjustable and features a one piece, clip on / clip off moulded antibacterial seat.

- ▶ Seat has been ergonomically contoured for comfort and support and features a partial cut away at front and rear to facilitate personal hygiene
- ▶ Weight Capacity: 44st (280kg)

The Solo Toilet Lift replicates natural standing movement at the touch of a button, assisting users to help themselves get up into a standing position. It acts as a normal toilet seat in the lowered position for use by other household members.

- ▶ Seat can be stopped at any position to suit user comfort and support requirements
- ▶ Fits easily and compactly over existing toilet, blending discreetly into modern home
- ▶ Smooth, wipe clean surfaces for ease of cleaning
- ▶ No specialist installation - simply remove existing toilet seat and place over toilet bowl
- ▶ Feet rotate clockwise and anti clockwise to adjust height for different users/toilets
- ▶ Models also available with tilt up armrests (with/without integral operating controls),
- ▶ Supplied with two rechargeable batteries to ensure continuous operation

- ▶ Easy clean and comfortable backrests and armrests
- ▶ Seat is moulded for comfort and warmth and has a front cut-away and rear recess to facilitate personal hygiene
- ▶ Lightweight, rustproof aluminium frame for ease of manoeuvring/handling and longevity
- ▶ Height and angle adjustable footplates swing in/out to facilitate transfers and are easily removable for ease of storage and transportation
- ▶ Backrest adjusts in height to suit user and is easily detached/reassembled
- ▶ Easy-reach brakes on self-propelling wheels allow stable positioning
- ▶ Self-propelling rear wheel kit available for easy attachment to enable independent use
- ▶ Weight Capacity: 25st (160kg)

1. Long / Extra Long Handled Bath Sponge

The lightweight, Long Handled Bath Sponges assist individuals with limited shoulder, trunk or hip movement, enabling hygiene to be maintained in difficult to reach areas.

- ▶ Multi-purpose sponges can be used for bathing or for household chores
- ▶ Long handled version features strong, acrylic handle
- ▶ Extra-long sponge has an aluminium handle

2. Flannel Strap & Wash Mitt

The Flannel Strap is made from soft terry cotton and is designed to help reach those awkward places when washing.

- ▶ Matching hand mitt included
- ▶ Soft terry cotton for washing and coarse reverse side ideal for exfoliating / skin toning
- ▶ D-shaped plastic handles allow an easy, secure grip
- ▶ Hand wash only

3. Lotion Applicator with Massaging Head

A dual function lotion applicator and massager in one, which enables users to easily apply creams, oils and lotions to difficult to reach areas of the body such as the back and shoulders.

- ▶ Also supplied with a detachable head that can apply less viscous oils and lotions via a series of roller-balls
- ▶ Ensures even lotion distribution
- ▶ Can also be used as a simple, but effective massage device

4. Long Handled Net Sponge

The lightweight, Long Handled Net Sponge enables easy cleaning of more difficult to reach areas, removing the need for excessive movement or bending.

- ▶ Loop on handle allows sponge to be hung
- ▶ Encourages the soap to lather, providing a enjoyable wash
- ▶ Length: 380mm (15")

5. Hair Washing Tray

Simple to use Hair Washing Tray rests comfortably on the users shoulders for easy, upright shampooing.

- ▶ Ideal for use with a chair or wheelchair, or to assist those with limited movement
- ▶ Prevents awkward bending reduces back strain for carers
- ▶ Compact and lightweight
- ▶ Features flexible rubber edging surrounding the tray and neck opening to provide superior comfort and prevent slipping

6. Inflatable Hair Washing Basin

The Inflatable Hair Washing Basin is a simple, but sturdy PVC basin which is easily inflated by mouth or pump. Ideal for bed use, it is easily and conveniently drained with a one-way hose.

- ▶ Enables hair to be washed in bed, without mess or fuss
- ▶ The sides of the basin fit snugly around the users head and safely contain water and suds while the hair is being washed
- ▶ Deflates for easy storage

The swivelling Bath Seat sits across top of bath and enables users to rotate their body and legs into bath.

- ▶ Backrest and arms offer additional support
- ▶ Has a sturdy steel base frame, with easy to clean plastic seat
- ▶ Suitable for acrylic and enamel baths
- ▶ Seat smoothly rotates 360° by operating an accessible lever, locking at every 90° interval
- ▶ Drainage holes prevent water spillage
- ▶ Weight Capacity: 19st (120kg)

1. Flat End Grab Rails 18" / 24" / 28" Straight

Used indoor and outdoor, grab rails provide additional support for walking around the home and help with sitting/standing.

- ▶ 2.5cm (1") steel grab rail has a tough Duradip® peel-resistant plastic coating for longevity
- ▶ Has a hand clearance of 5cm (2") and flat ends each have 2 fixing holes for secure fitting

01

2. Chrome Grab Rail 12" / 16" / 18" / 32" Flanged

These grab rails help with rising and to provide support when moving around. Available with round ended bases made from white powder coated steel.

- ▶ Provides assistance with standing up/sitting down and offers additional support when walking around the home
- ▶ 2.5cm (1") thick steel grab rail has a tough, Duradip® corrosion resistant white plastic coating for durability and a hand clearance of 7cm (3")
- ▶ 2 rose flanges and 3 fixing holes allow secure fitting

02

03

3. Grab Rail Loop Hinged

These rails are wall-mounted behind toilet or in shower to assist with sitting down/standing up from the toilet. They are extremely useful where space is limited, as they fold up when not in use or for access/wheelchair transfers.

- ▶ Made from robust mild steel, 3.5cm (1.4") in diameter, and coated with white epoxy powder for durability
- ▶ Simple lift and drop folding mechanism with minimal lateral movement - locks securely into position when folded up
- ▶ 3 Options: with Toilet Roll Holder, with Ferrule or with Leg
- ▶ Wall plate size: 10 x 20cm (3.9 x 7.9") with 6 x 8mm (0.3") diameter holes
- ▶ Weight Capacity: 19st (120kg)

4. Flat End Grab Rails 18" / 24" / 28" 45° Angled

Used indoor and outdoor, rail provides additional support for walking around the home and helps with sitting/standing.

- ▶ 2.5cm (1") steel grab rail has a tough Duradip® peel-resistant plastic coating for longevity
- ▶ Has a hand clearance of 5cm (2") and flat ends each have 2 fixing holes for secure fitting
- ▶ Offset at 45° angle for where access is difficult (e.g. door jam)

Bathroom Safety At Home

Falls are the number one reason that older people are taken to the Accident and Emergency department. There are many different reasons, and normally a combination of risk factors, why people fall in later life. One of the main reasons is simply the natural deterioration in a person's muscle strength and eyesight associated with their natural ageing process. This can cause difficulty with balance, bending and stepping.

Falls are not inevitable, Falls are preventable.

According to the NHS, 6 out of 10 falls happen in the home or garden with one of the most common places to fall being in the bathroom. Wet and slippery surfaces, poor lighting, loose mats and flooring, difficulty stepping over and into a bath or shower, bending to wash and clean combined with the necessity to visit the bathroom more often especially at night creates a multitude of worrying potential hazards.

1 in 10 older people who fall become afraid to leave their homes in case they fall again, causing increased isolation and reduced independence.

Statistic by Age UK

Most importantly though healthcare experts believe the vast majority of falls could be prevented with some fairly modest changes to a person's lifestyle and home. NHS recommendations include regular strength and balance exercises, a medication review, a vision test and a home hazard assessment.

The following safety steps will help minimise bathroom falls before they happen:

- ▶ Use high-wattage light bulbs in ceiling lights and lamps so you can clearly see on the path from the bedroom to the bathroom, and in the bathroom itself. Remove clutter, trailing wires and frayed carpets
- ▶ Make sure your bathroom floor is dry, immediately mop up any spillages and use non-slip rugs. Do not walk on slippery floors in socks or tights. Avoid wearing loose fitting, trailing clothes that may trip you up
- ▶ Make sure towels, soap and shampoo are within easy reach of the sink, bath and shower. Organise your bathroom so that stretching and bending are kept to a minimum, and to avoid bumping into things
- ▶ Add grab bars in and beside the toilet, bath and shower.
- ▶ Use a non-slip mat in the bath and shower
- ▶ Install a toilet safety frame to ensure ease of getting on and off the toilet
- ▶ Have your eyes checked at an Opticians at least once a year and visit a Chiropodist for any foot problems
- ▶ Ask your GP to review medications to identify those that may cause dizziness or drowsiness
